

Your Photovoltaic Facility in Comparison

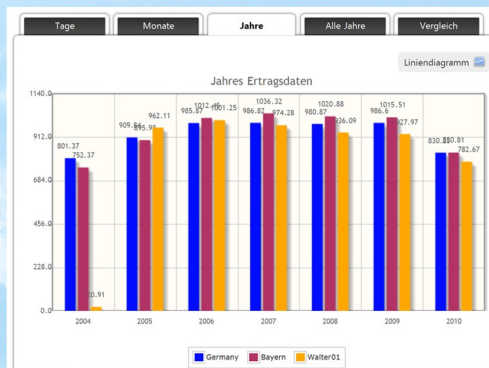

www.solar-yield.eu is the probably largest international photovoltaic revenue database. You can register and join with your photovoltaic facility for free and contribute therewith to the further success of Solar-Yield. Solar-yield offers you many nationwide comparisons and statistics.

Map with all facilities of the database

A sample of the various possibilities do you see in the following graphs:

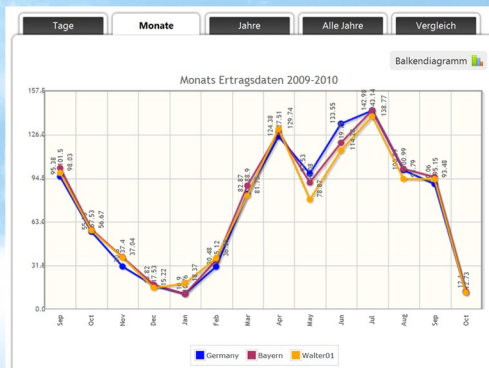

- Are my photovoltaic revenues matching to the other facility data
- Is my facility above average
- Which area is especially suitable for PV
- Where are most of the PV facilities located?

Compare your facility with others in your state or the whole country

Direct comparison of your facility in a certain period
